

KrillCode™ Series

Krill oil, a Premium Omega-3

Krill oil is one of the best source of omega-3 for our body, and was clinically proven by Enzymotec to be more efficient than fish oil in increasing levels of omega-3 in our blood.

K•REAL™ is manufactured through a proprietary process called **Multi Stage Oil-extraction (MSO™)** developed by Enzymotec.

The **MSO™** innovative technology preserves the natural nutrient profile of krill oil while removing spoilage components such as – Trimethylamine (TMA), Total Volatile Nitrogen (TVN), other oxidative elements and derivatives. This process leads to improved organoleptic and physical properties (Less fishy odor, optimal viscosity for encapsulation).

The beneficial effect of omega-3 is well established. Researchers suggests that increasing the level of omega-3 in the red blood cells lowers the risk for CVD.

Krill oil is a better source of omega-3 compared to fish oil

Better Absorption

K•REAL™ krill oil, unlike fish oil, is a phospholipid omega-3 based product. Studies show that phospholipids are better absorbed into the blood and target organs such as the brain, heart, liver and more

Better Efficacy

K•REAL™ was clinically proven by Enzymotec to be better absorbed into the red blood cells (RBC) compared to fish oil, and to increase the level of omega-3 index. Increasing the omega-3 may reduce the risk for CVD. Additional studies show that krill oil is effective for multiple indications, from chronic inflammation to hyperlipidemia, cognitive function, fatty liver disease, joints health and more.

No Fishy Burps

Consumption of **K•REAL™** is not accompanied by unpleasant fishy burps.

Antioxidant

K•REAL™ naturally contains an antioxidant called Astaxanthin that helps protect the body against the effects of free radicals that can cause cell damage.

Sustainability

K•REAL™ is extracted from krill biomass supplied only from vessels and facilities monitored by members of the Convention for the Conservation of Antarctic Marine Living Resources (CCAMLR).

KrillCode™ uses K•REAL™, one of the best source of omega-3 for our body. It has been clinically proven to be more efficient than fish oil in increasing levels of omega-3 in our blood.

BENEFITS OF K•REAL

REDUCE THE NEGATIVE ACTION OF CHRONIC INFLAMMATION
(EXEMPLIFIED BY REDUCTION IN C-REACTIVE PROTEIN (CRP) LEVELS)

JOINT HEALTH

IMPROVED BLOOD LIPID PROFILE (SUCH AS CHOLESTEROL AND TRIGLYCERIDES)

REDUCTION IN BLOOD GLUCOSE LEVELS

AMELIORATION OF PREMENSTRUAL SYNDROME (PMS) SYMPTOMS

IMPROVED COGNITIVE FUNCTION

IMPROVED LIVER HEALTH
